THE KAYLITE ADVANTAGE

Why choose Kaylite cornice?

Kaylite cornice is an ornamental moulding that finishes the join between wall and ceiling. It is made from expanded polystyrene (EPS), known in Zimbabwe as Kaylite. Our design and plain cornices are machine-cut from solid Kaylite blocks at our factory in Workington, Harare.

Lightweight

Easy to carry to site, handle and cut. One person can install it.

Easy to install

Cut with a sharp blade and fix with cornice glue. No nails, no special tools.

Never cracks

It expands and contracts with your walls and ceiling, unlike rhinolite or plaster.

Fire retardant

Made from fire-retardant grade EPS, preferred by architects for safer buildings.

Water resistant

It will not weaken or lose its shape in water, so no stains from a leaking roof.

Insulating

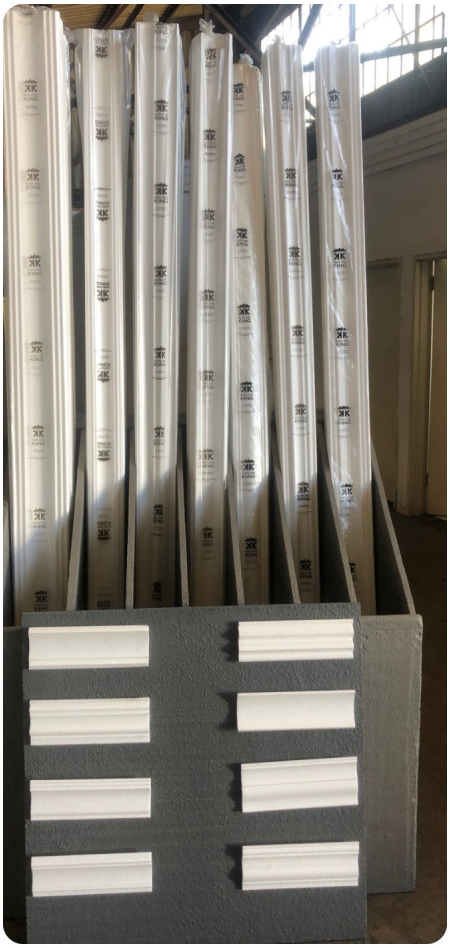
Paired with Kaylite ceiling boards, it keeps heat out in summer and warmth in during winter.

Recyclable

Offcuts are reground and reused to make new Kaylite products.

Cost effective

A small amount of glue fixes each length, and installation is quick.



Our cornice stand, as seen in leading hardware stores.

The range at a glance

Range	Profiles	Length	Finish	Page
Design cornices	7: KKC01 to KKC06, 01C, NMC	2.4 m	Machine-cut, smooth	3
Plain cornices	2: B1 (75 mm), B2 (90 mm)	2.4 m	Classic cove	4
Cornice glue	310 ml tube, 1, 2 and 5 kg tubs	n/a	Quick-drying	4

RANGE 1

Design Cornices

2.4 m lengths | Packs of 10

KKC01
Design Cornice 01

Width	On request
Length	2.4 m
Order code	KKC01-10
Barcode	0072632858199

KKC02
Design Cornice 02

Width	On request
Length	2.4 m
Order code	KKC02-10
Barcode	0072632858205

KKC03
Design Cornice 03

Width	On request
Length	2.4 m
Order code	KKC03-10
Barcode	0072632858212

KKC05
Design Cornice 05

Width	On request

Order code	KKC01C-10
Barcode	0072632858250

KKCNMC

KKCNMC
Wide Design Cornice NMC

Width	On request
Length	2.4 m
Order code	KKCNMC-10
Barcode	0072632858243

Clean lines for every room

Design cornices are machine-cut from solid Kaylite for a smooth, even profile that paints beautifully. Choose a slim profile for bedrooms and passages, or a wide profile (01C and NMC) for lounges, offices and high ceilings.

Sold per length or in packs of 10. Custom profiles can be cut to order: ask our sales team.

RANGE 2

Plain Cornices

B1
Plain Cornice 75 mm

Width	75 mm
Length	2.4 m
Code	B1-10
Barcode	0072632858373

B2
Plain Cornice 90 mm

Width	90 mm
Length	2.4 m
Code	B2-10
Barcode	0072632858380

Cornice Glue

A quick-drying, water-based adhesive for fixing Kaylite cornices to walls and ceilings. Use about **20–30 g per 2.4 m length**, so a 1 kg tub fixes roughly 33 to 50 lengths.

Size	Order code	Barcode
310 ml tube	CG0tube	0072632858427
1 kg tub	CG01	0072632858397
2 kg tub	CG02	0072632858403
5 kg tub	CG05	0072632858410

How to install

1. **Measure.** Walls and ceiling must be clean, dry and dust-free. Mark a light pencil line where the bottom edge of the cornice will sit.
2. **Cut.** Cut to length with a sharp blade or fine-tooth saw. Use a mitre box to cut corners at 45°.
3. **Glue.** Run a thin bead of cornice glue along both back edges, where the cornice meets the wall and the ceiling.
4. **Fix.** Press into place along your line. Glue the joints, then wipe off any excess with a damp cloth. No nails are needed.
5. **Paint.** When the glue is dry, paint with water-based (PVA or acrylic) paint. Never use solvent-based paints or glues, as they melt Kaylite.

How much do I need?

Lengths = room perimeter ÷ 2.4 m. Round up, then add one extra length per room for corners.

EXAMPLE: 4 m × 5 m ROOM
Perimeter 18 m ÷ 2.4 m = 7.5
Round up to 8, plus 1 = **9 lengths**
Glue: about 9 × 25 g = **225 g**

Not sure? WhatsApp your room sizes to 0790 210 070 and our sales team will help.

KAYLITE KING

PROUDLY ZIMBABWEAN
MAKING KAYLITE SINCE 1957

Zimbabwe's Leading Supplier of Polystyrene Products
